### The journey to leadership excellence:

**ASSESSMENTS:** This journey to leadership excellence begins with assessments of not only the participants, but also the needs analysis of the organization.

**PRE-LEARNING:** Three 60-90-minute training events will be held prior to the workshop. The goal of these three events is to provide participants with a baseline of fundamental information so that the workshop can provide deeper experiential learning. These topics will be determined by the assessments conducted above.

**THE WORKSHOP:** 6 two day interactive & engaging workshops – 2 months apart, Custom designed and laser focused to the executive team's needs. The workshops are engaging, challenging and fun! Participants can engage in exercises and role playing, discussions, bring their own experiences and perspectives to the training, and ensure that "real world" application to their specific task/job of the new skills is accomplished.

**REINFORCEMENT:** At the workshop, the participants complete a Personal Growth Strategy (PGS) which is a personalized 100-day action plan you create to keep you accountable and increase your success. Success Story has developed a broad range of reinforcement tailor-made tools including online learning, workbooks, videos, conference calls and webinars and the most effective of all, our unique one-on-one coaching conducted by ICF certified coaches, designed to bring out the innate greatness from within every participant by helping them identify and accomplish their desired growth.

Weekly live empowerment/motivational video conference which will be conducted by our expert coaches or any of our internationally recognized affiliates. These calls will be recorded and a link will be sent to the executives for viewing later if they were unable to attend. Those who attend live will have an opportunity to interact with the presenter.

**FIELD TRIPS:** to meet executives from some of the world's best performing and fastest growing organizations in the cities where the workshops are conducted.

**EXCURSIONS & ACTIVITIES:** where the executives can bond & grow together while they create bigger visions, set higher goals and build better teams together.
